Character Background

When Swashbubble was growing up, her father, a fearsome pirate captain, would take her on his voyages. One night, out in the middle of the ocean, a terrible storm wrecked their ship, sending the whole crew to a perilous fate. Swashbubble was able to catch hold of some driftwood, and as the skies cleared, she floated toward a small island. It ended up being inhabited entirely by fairies! Swashbubble was welcome with open arms, but only if she gave up her pirating ways and renounced violence. After she agreed, the fairies took away her weapons, and replaced them with Swashbubble's now iconic magic bubble gun and sword! She lived for years amongst the fairies, where she perfected bubble tricks galore! The enchanted bubble weapons brought her so much joy, that when she turned 16, she decided to set back out to sea to share the magic of bubbles with every corner of the globe.
